

Name: _____

Date: _____

Mrs. Roubos

8R Period _____

HOMEWORK

| | |
|---|--|
| <p>1) Solve the equation & state the property used:</p> $4x = 12$ | <p>2) Solve the equation & state the property used:</p> $3x = -36$ |
| <p>3) Solve the equation & check:</p> $-2x = 6$ | <p>4) Solve the equation & check:</p> $-5x = 20$ |
| <p>5) Solve the equation & state the property used:</p> $\frac{x}{3} = 4$ | <p>6) Solve the equation and check:</p> $12 = \frac{x}{2}$ |
| <p>7) Solve the equation and state the property used:</p> $\frac{2}{3}x = 6$ | <p>8) Solve the equation and check:</p> $\frac{5}{8}x = 25$ |
| <p>9) Solve the equation and state the property used:</p> $-\frac{1}{3}x = 4$ | <p>10) Solve the equation and check:</p> $-\frac{1}{5}x = 5$ |
